

SPIKE AERATOR

<http://tiny.cc/spikeaerator>

FEATURES & BENEFITS

- Quick and efficient operation
- Suitable for sandy or loamy soils

The spike aerator cuts and penetrates the ground surface using the wedge shaped spikes. The cut slots enable air, fertilizer, and water to effectively reach the lawn roots in sandy or loamy soils. The open slots quickly close after water causes the compacted soil to expand.

Spike penetration depth is easily controlled using the two guide rollers, providing consistent results.
