

LOG SPLITTER

<http://tiny.cc/logsplitter>

- **Powerful and safe log splitter**

The hydraulically powered MultiOne log splitter allows you to safely and quickly split cut logs into firewood. The large support table is great for handling large tree cut-offs, and the twin safety grip activation handles assure that the operator's hands are safely away from the splitting action.

Model	Power	Max log diameter	Weight	Code	Price
Log splitter	7 ton	40 cm (15.7 in)	110 kg (43.3 lbs)	C890570
